

AUSTRALIAN-AMERICAN ASSOCIATION IN SOUTH AUSTRALIA

The Australian-American Association in South Australia was formed in March 1941 to foster and promote better understanding, mutual appreciation and friendly co-operation between the peoples of Australia and the United States of America. The Association has the full support of the Governments of Australia and the USA.

Australia has a special bond with America, a nation with which we share strong cultural, historic, social and economic ties.

We believe it is important for Australia and the USA to have a good relationship now and in the future and for present and coming generations to be aware of, and realize the value of this friendship.

Membership is open to those who are interested in furthering the aims of the Association, and who are interested in participating in the fellowship provided by our many social activities.
